

2022 HELPING YOU REACH YOUR GOALS

Master instructor Paul Giambrone has been involved in the game for almost 30 years. With 25 world titles, 30 400X400s, and the youngest NSSA HOF member, he will help new or experienced shooters reach their shooting goals. He has coached several shooters to become world champions and has helped hundreds reach all-american status. He tailors each lesson to the individual and sends follow-up notes and instructions on how to elevate your game to the level you desire.

NEW! THE COIL UP SHOOTING METHOD

- Getting the big muscles involved to produce consistent gun speeds
- Match gun speed and target speed more consistently
- Faster break points, setting you up for doubles
- Better visual acuity of the target

IT'S ALL IN THE EYES

- Understanding how your eyes work, how to use them properly for better visual acuity of the target
- Using the soft focus and peripheral vision on the faster shots to help you acquire and break targets quicker
- How to use the soft focus to acquire your 2nd target in doubles
- See targets as clearly as you can at the correct times
